

Our vision

1. To deepen our understanding of the constitutional roots of democracy – informed and active participation, freedom of speech, right of peaceful assembly, right of petition.
2. To understand the causes of conflicts in general and the current conflicts in particular.
3. To understand – and to act to heal – the consequences of war and violence to societies and individuals.
4. To educate ourselves and others about the causes of war and strategies for peace.
5. To act directly and nonviolently in accordance with our understanding of causes of war and strategies for peace.
6. To encourage others, in our community and beyond, to join in nonviolent efforts toward a culture of peace.
7. To work for ethical and constitutional political leadership.

Founded in the early 1980s when President Reagan talked of "prevailing" in nuclear war. Very active throughout the '80s. A presence in the neighborhood's Arts Festival and 4th of July parade in the early '90s. Waned in the later '90s. Restarted in 2002 when President Bush talked of "preemptive" war.
